Re: Access to Bunker Hill Mine for Sampling

Dear Mr. Hopper:

I am writing this letter at your request to document our conversation earlier in the week regarding access to the Bunker Hill Mine for sample collection. I requested access from you in order to complete the last scheduled mine water sampling event. We would like to conduct the sampling during the month of August. As I understand, you granted such access, and we agreed that Bill Hudson would contact you directly to make the specific arrangements. Please call me at (206) 553-2712 if you have any questions.

Sincerely,

Mary Kay Voytilla  
Project Manager
